

Benevolence
The Ministry of WMI

Under Dr. Michael Hyodo's leadership, we have started dental clinics to serve those in poverty in countries such as Romania, El Salvador, Jamaica, Dominican Republic, Russia, and Kenya. In Kenya alone, we want to start 12 dental clinics. We also want to open up non-traditional Bible Schools in countries throughout the world. In the third world many of the pastors have little or no training.

Through our World Ministries International School of Theology, we can offer excellent biblical education for very little money. The students watch 10 hours of lecture from a DVD, take notes in a syllabus and read a textbook. After the 10 hours of classroom teaching, they have two weeks to complete an open book test. They can earn degrees up to their doctorate and be prepared for practical ministry. Most of these pastors will never be able to attend an academic seminary, but this is an excellent way to train them to serve Jesus Christ as flames of fire.

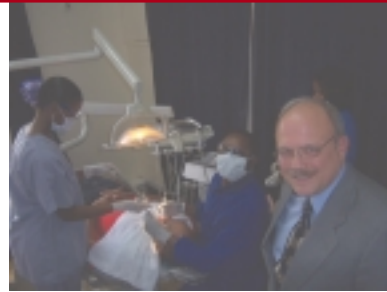

Throughout the world we also serve the needy in orphanages, refugee camps, slums etc. In the photos you can see us in a slum in Nairobi, Kenya where we are helping a school. I also visited orphans in Burundi where the children sleep directly on the floor, on top of a bamboo mat, inside a house that would be condemned in America. You will see our main dental clinic in South C, Nairobi Kenya and our Bible School office located at the Telposta Towers in Nairobi.

Please help us feed the widows and orphans and drill water holes for those dying from no water or bad water. Help me open these Bible Schools for pastors. I need money to buy DVD equipment and tuition for pastors who would like to be properly trained in the Scriptures.

Help me go to Liberia to plant dental clinics and start Bible Schools. In Liberia they have only one dental clinic and one Liberian Dentist for the entire nation.

Please fill out the form on page 7, and help me be able to help them.

May the Lord richly bless you.
